

# CONTRARY TO POPULAR BELIEF, SIZE DOES MATTER.

Finding a wader that fits properly has never been easier. Simms offers the largest range of stock sizes for fishing waders available today and with the additional sizes and options offered through our one-of-a-kind **Custom Shop Program**, we have the right wader for you. Moreover, if you find the right fitting wader but discover the stockingfoot size isn't quite right, all is not lost. With our longstanding **Custom Stockingfoot Program**, you can select any of the standard stockingfoot sizes offered by Simms to be applied to the best fitting upper. If you'd prefer a bootfoot, we also offer the option to add a Muck® boot to most of our wader models through our **Custom Bootfoot Program**. Simms waders. Handcrafted in Bozeman, Montana.
